## SITUATION SUMMARY

### Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

#### Weather of Concern

##### **Northern California**

- A second system is quickly moving in today for another round of rain and snow although not as strong as the previous system.
- There will be gusty winds and potential for hazardous mountain travel.

##### **Southern California**

- High surf expected generated by large, long period, West-Northwest swells today.
- Swells up to 15 feet are anticipated in some areas.

#### **Active Weather Warnings, Watches and Advisories by County:**

#### **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought
- .

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Medford Weather:**

A very potent storm system is beginning to make its way into our area this morning. Gusty winds have already started along the coast and in the Shasta Valley, and will shortly make their way into the Rogue Valley and the East side,

#### **Eureka Weather:**

Another cold front will bring gusty winds and a period of heavy rain this morning. A drying and warming trend will begin on Saturday and persist into early next week although a few weak systems may bring some periods of light rain.

#### **Reno Weather:**

A weak, fast moving upper level disturbance will bring an increased chance of rain and snow to areas North of Interstate 80 this afternoon and evening. Winds will also be breezy this afternoon. Snow at the higher passes could cause a few travel headaches early this evening. A ridge of high pressure will begin to develop over the weekend and become more pronounced early next week.

#### **Sacramento Weather:**

A second wave of snow arriving today into this evening. Travel delays possible over the sierra. Breezy to windy conditions over the Northern Sacramento Valley through Friday afternoon. Dry over the weekend.

#### **San Francisco Weather:**

A weak weather system will spread rain across much of the San Francisco Bay Area today while the Southern half of the region will likely remain dry. Dry weather returns region-wide for the weekend along with a warming trend into much of next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Hanford Weather:**

Central California will remain South of the storm track during the next several days with dry weather prevailing. Temperatures will average slightly above normal through the weekend then warm to well above normal early next week.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

A warming trend will take place through early next week as upper level high pressure builds over the region and offshore flow develops. Daytime temperatures will be well above normal by Monday. A gradual cooling trend is expected for the middle and end of the week as high pressure weakens.

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

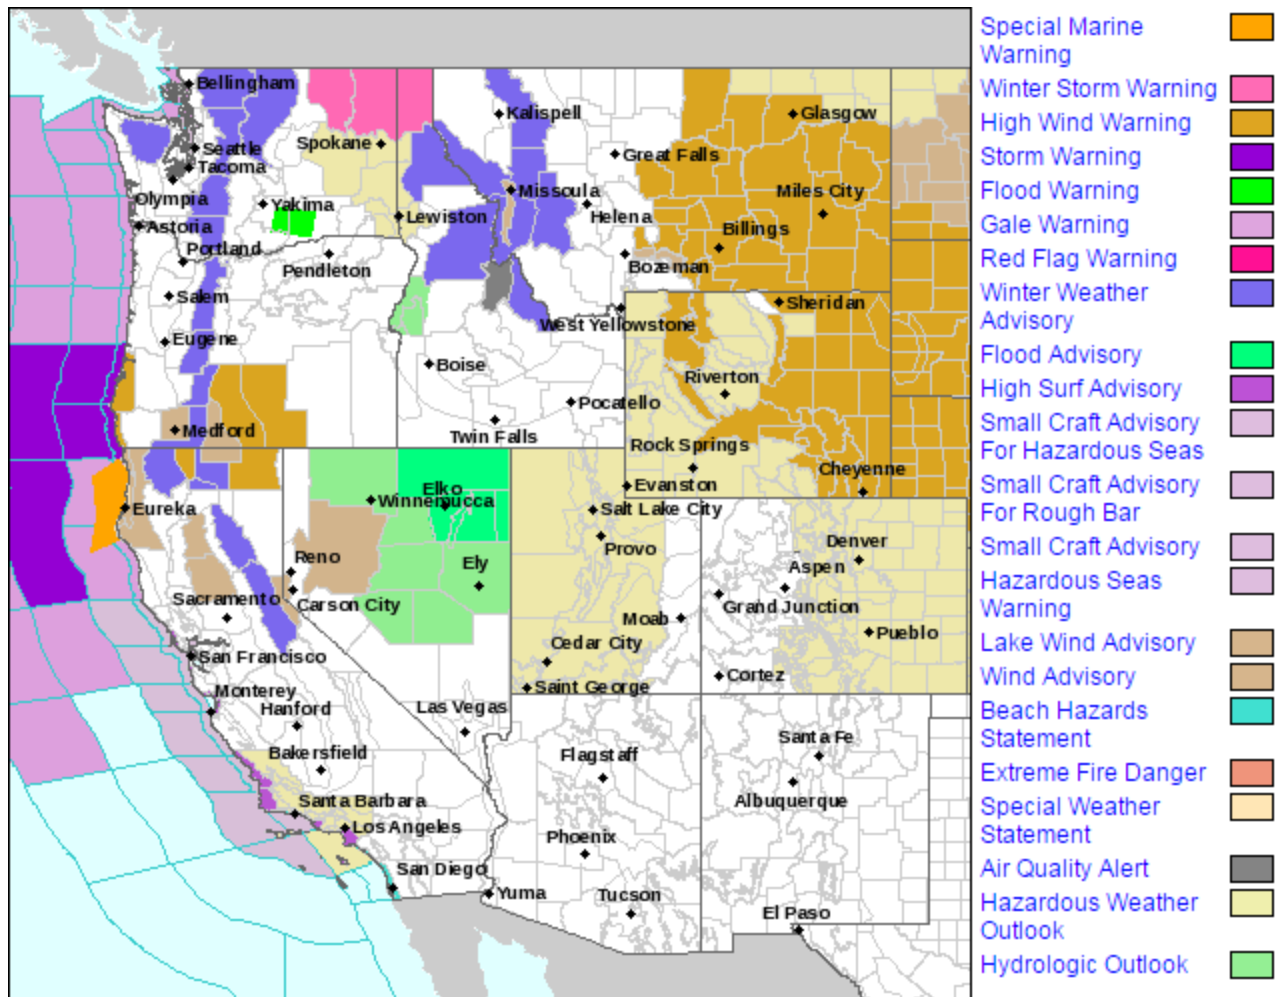

High pressure aloft will strengthen near the West Coast bringing a warming trend through early next week with well above average high temperatures for early next week. Gradually cooler for the middle to latter part of next week as high pressure weakens.

#### **Southeast California Weather:**

Considerable clouds are forecast to move across the region today with clearing skies tonight. Mostly clear skies are forecast from Saturday through the end of next week along with warmer days and a resumption of much above normal temperatures by the middle of next week.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**
